Dear Glen

Re: Testimonial

Just a few words to thank you and your team for carrying out such a professional review of current electrical installations, and for improving our warehouse lighting.

Over the few days, your two electricians were always polite, neat in their work, and appeared to carry out the jobs very efficiently, causing zero disruption to our business activities.

With the above in mind, I would have no hesitation in recommending Watkins Cole services.

Yours sincerely

Nick Swan
Managing Director
